Portfolio

Skills

Programming Languages	TypeScript, JavaScript, HTML, CSS, Python
Tools & Platforms	Git, GitHub, Vercel, VS Code, AWS, Render, GCP, Postman, WordPress, Adobe XD, Figma, Storyline
Frameworks & Libraries	React.js, Redux, Zustand, Node.js, MongoDB, Express.js, JWT, Tailwind CSS, Bootstrap, jQuery

Work Experience

Developer   **April 2025 — Present**
ansrsource   *Austin - Remote*
- Completed a multilingual training module built with Gulp.js, SCSS, and Handlebars.js, refining it through agile feedback cycles and ensuring LMS compliance for a global client in the industrial tooling sector.
- Built responsive HTML, CSS, and JavaScript articles from scratch for a custom LMS based on unique client needs.
- Collaborated cross-functionally with teams to interpret and implement client requirements effectively across projects.

Junior Developer – Consultant   **Jan 2025 — Mar 2025**
ansrsource   *Austin - Remote*
- Built a React + Tailwind portfolio demo site showcasing past work, resulting in a **70% boost** in client engagement.
- Received a Spot Award for consistently delivering high-quality work, adapting quickly, and exceeding expectations.
- Sole developer of **15+** audio-based e-learning courses for a global healthcare client, managing integration and feedback.

Junior Developer Intern   **July 2024 — December 2024**
ansrsource   *Austin - Remote*
- Improved course modules by applying **client feedback**, refining UI with HTML, CSS, jQuery, and ensuring style consistency.
- Expanded reach by localizing modules into **12+ languages** and boosting accessibility with clean, modular code.
- Delivered **SCORM-compliant** courses by enhancing layouts, refining styles, and using modern frontend tools.

Projects

Tandoori Js {Repo}   **Jan 2024 — Present**
- Developed a food ordering platform using **Parcel bundler**, **Babel.js**, **React.js**, **React-Router**, and **Redux Toolkit** for state management, ensuring a **dynamic UI** and **responsive design**.
- Built a **config-driven UI** with real-time data from Swiggy's API and reusable components for modular, maintainable code.
- Engineered a library-free multi-image **carousel** and **case-insensitive search**, enhancing platform functionality.
- Utilized Tailwind CSS for an **interactive UI** and effective **Error-handling**, improving user experience and reliability.

WitChat {Repo}   **March 2024 — April 2024**
- Developed a real-time chat application using the **MERN stack** and **socket.io**, facilitating seamless user communication.
- Integrated **cloudinary** for avatar storage and implemented secure **user authentication** with **bcryptjs** and **jsonwebtoken**.
- Optimized **CRUD operations** in **MongoDB** with **node.js + express.js**, ensuring efficient data retrieval and storage.
- Employed modern libraries like **react-router-dom** and **react-toastify** for a responsive and interactive frontend interface.

FundVerse {Repo}   **Sep 2023 — March 2024**
- Designed FundVerse, a blockchain platform for **crowdfunding**, allowing users to create campaigns and collect donations.
- Developed with **Solidity** backend, **React.js** frontend, and **Tailwind CSS**, managing the codebase with **Git** for collaboration.
- Deployed on **Sepolia testnet** via **Thirdweb** and **Hardhat**, ensuring robust blockchain functionality testing.

Education

Sant Gadge Baba Amravati University   **July 2020 — June 2024**
Bachelor of Engineering in Computer Science and Engineering — 7.93 CGPA   *Malkapur, Maharashtra*

J. E. School & Junior College   **July 2019 — May 2020**
Senior Secondary (HSC) — 60.31%   *Muktainagar, Maharashtra*

Sardar G. G. Highschool   **June 2017 — May 2018**
Junior Secondary (SSC) — 78.4%   *Raver, Maharashtra*

Activities

Project Student Coordinator at VBKCOE, Malkapur	Aug 2023 — April 2024
National level technical event Tech Tantra 2k24 winner for FundVerse blockchain project	Feb 2024
Event Coordinator at Relish 2k24	Feb 2024

Certification

Namaste JavaScript Certification {Advanced JavaScript}	Nov 2023 — Jan 2024
Front-End React Developer intern at Skyscanner	Feb 2024 — March 2024
AWS Solutions Architect at Forage	April 2022 — May 2022
Infosys Springboard JavaScript {Intermediate JavaScript}	March 2022 — May 2022
